Message from Chairman

As we welcome in the Lunar New Year, our General Committee is working harder than ever to fix as many matters as we can to better serve our membership. We are committed to a Way Forward Plan that will lead us to more fully explore the Club's potential, while creating a pathway to step forward to a more open, diversified and entertaining club.

We have already made an important step by approving the Way Forward Plan concept, and with the co-operation of all General Committee Members to brainstorm and outline the prospect of our Club in the coming years. If anyone has any suggestions or good ideas, please don't hesitate to contact us. Our Club needs your talent. It's the aspiration and optimism of our members that inspire us and give us hope.

In the Year of Rooster, I wish all our members and staff happiness, prosperity and good health.
